

GS D100BT-Plus

Bluetooth Dongle

The Generalscan upgraded Bluetooth adapter GS D100BT-Plus can be used with all Generalscan barcode scanners, connecting it to the Generalscan barcode scanner and computer, extending the operating distance of Bluetooth from 10 meters to 40 meters. It can significantly increase the flexibility of mobile workers and expand their work area.

The new Bluetooth adapter not only changes the appearance, it simplifies operation, and does not require any drivers to be installed on the computer. You can also use brackets and rubber plates anywhere to fix the GS D100BT-Plus.

FEATURE

- Supports Bluetooth SPP quick pairing and one-click clear Paired.
- Support master and Slave modes.
- RJ45 interface.
- Communication: RS232, USB .
- Distance of Bluetooth communication 40 meters (without obstructions)
